*Resuscitation*, 16 (1988) 311–313
Elsevier Scientific Publishers Ireland Ltd.

# CONTENTS
Volume 16 (1988)

**Beneficial effects of Dextran 70 versus Ringer's acetate on pulmonary function, hemodynamics and survival in a porcine endotoxin shock model**
by J. Modig ..... 1–12

**Comparison of sodium bicarbonate with dichloroacetate treatment of hyperlactatemia and lactic acidosis in the ischemic rat**
by R.V.W. Dimlich, M.H. Biros, D.W. Widman and J. Kaplan ..... 13–30

**The effectiveness of postischemic oxypurinol administration upon myocardial function in the isolated rat heart**
by S.F. Badylak, W.D. Voorhees III, C.F. Babbs and A. Simmons ..... 31–43

**Bilateral optic atrophy after cardiac arrest in a patient with acute respiratory failure on positive pressure ventilation**
by L. Chelluri and M.S. Jastremski ..... 45–48

**Refractory neonatal hypoxemia: Diagnostic evaluation and pharmacologic management**
by W.E. Benitz and D.K. Stevenson ..... 49–64

**Role of proteases in patients with acute renal failure and regular hemodialysis therapy**
by W.H. Hörl and A. Heidland ..... 65–74

**Literature of Resuscitation** ..... 75–78

**Hexose monophosphate pathway activity in normal and hypoxic rat brain**
by K. Domańska-Janik ..... 79–90

**Adult respiratory distress syndrome: current concepts**
by C. Putterman ..... 91–105

**A model for regional blood flow measurements during cardiopulmonary resuscitation in a swine model**
by R.B. Taylor, C.G. Brown, T. Bridges, H.A. Werman, J. Ashton and R.L. Hamlin ..... 107–118

**Single hemorrhage: a clinically relevant canine model of hemorrhagic shock**
by R.G. Carroll, S.G. Iams, W.H. Pryor Jr. and E.J. Allison Jr. ..... 119–126

**Prognostic value of brainstem auditory evoked potentials in pediatric patients with traumatic coma**
by S. Nataloni, M. Gentili, R. Pagni, M. Valente, S. Gentili, A. Ferretti and G. Brozzi ..... 127–131

**pH and electrolytes in nasal secretum of intensive care unit patients**
by F. Cavaliere, S. Masieri, R. Proieti and S.I. Magalini ..... 133–137

**Changes in somatosensory evoked potentials in dogs following cardiac arrest and resuscitation**
by C.A. Sheets and J.B. McCabe ..... 139–147

**Literature of Resuscitation** ..... 149–151

**Editorial: Open chest massage for resuscitation from cardiac arrest**
by A.B. Sanders, K.B. Kern and G.A. Ewy ..... 153–154

**Open chest cardiac massage: A review**
by J. Eldor, D.Z.N. Frankel and J.T. Davidson ..... 155–162

**Elevation of serum pancreatic secretory trypsin inhibitor following serious injury**
by T. Shibata, M. Ogawa, N. Takata, T. Niinobu, K-I. Uda, T. Ukai, M. Ohta and T. Mori ..... 163–168

**Mechanism of electrical defibrillation of the heart**
by A.M. Chernysh, V.Ya. Tabak and M.S. Bogushevich ..... 169–178
**Decreased density distribution of mesenteric and diaphragmatic microvascular anionic charges during murine abdominal sepsis**
by L. Gotloib, A. Shustak, J. Jaichenko and P. Galdi ..... 179–192
**Early changes in extracellular amino acids and calcium concentrations in rabbit hippocampus following complete 15-min cerebral ischemia**
by R. Pluta, E. Salińska, M. Puka, A. Stafiej and J.W. Łazarewicz ..... 193–210
**Efficacy of a combination thromboxane receptor antagonist and lipoxygenase inhibitor in traumatic shock**
by M.A. Levitt, G. Stahl and A.M. Lefer ..... 211–220
**Inaccuracies in manometric central venous pressure measurement**
by D.G. Clayton ..... 221–230
**Literature of Resuscitation** ..... 231–237
**Announcements** ..... 239
**Myocardial perfusion pressure: a predictor of 24-hour survival during prolonged cardiac arrest in dogs**
by K.B. Kern, G.A. Ewy, W.D. Voorhees, C.F. Babbs and W.A. Tacker ..... 241–250
**The effect of epinephrine on hemodynamics, acid-base status and potassium during spontaneous circulation and cardiopulmonary resuscitation**
by K.H. Lindner, F.W. Ahnefeld and I.M. Bowdler ..... 251–261
**Non-invasive conjuctival $Pco_2$ and $Po_2$ monitoring during hyper- and hypoventilation**
by H.B. Kram, P.L. Appel, S. Fink and W.C. Shoemaker ..... 263–269
**Post-ischemic neurologic recovery and cerebral blood flow using a compression model of complete "bloodless" cerebral ischemia in dogs**
by W.L. Lanier, J.E. Fleischer, J.H. Milde and J.D. Michenfelder ..... 271–286
**Hypoxia and ischemia modifies histamine metabolism and transport in brain synaptosomes**
by J. Waskiewicz, L. Molchanova, E. Walajtys-Rode and U. Rafalowska ..... 287–293
**Literature of Resuscitation** ..... 295–301
**Letter to the Editor** ..... 303–304
**Subject Index Volume 16** ..... 305–307
**Author Index Volume 16** ..... 309–310
**Contents Volume 16** ..... 311–313

***Supplement: The Uses of Midazolam and Flumazenil in Intensive Care***

**Introduction** ..... S1

**SESSION I**
**Clinical pharmacology of Dormicum (midazolam) and Anexate (flumazenil)**
by R. Amrein, W. Hetzel, E.P. Bonetti and M. Gerecke ..... S5–S27

**SESSION II**
**Midazolam infusion and the benzodiazepine antagonist flumazenil for sedation of intensive care patients**
by E. Geller, P. Halpern, E. Barzelai, P. Sorkine, M.C. Lewis, A. Silbiger and Y. Nevo ..... S31–S39
**Flumazenil (Ro 15-1788) and physostigmine**
by P.M. Lauven and H. Stoeckel ..... S41–S48
**Early clinical experience in reversing benzodiazepine sedation with flumazenil after short procedures**
by E. Geller, D. Niv, Y. Nevo, Y. Leykin, P. Sorkin and V. Rudick ..... S49–S56

**The use of flumazenil in the treatment of 34 intoxicated patients**
by E. Geller, D. Niv, A. Weinbrum, A. Silbiger, P. Halpern and P. Sorkine ..... S57 – S62
**Problems of drug elimination in intensive care patients**
by F. Follath ..... S63 – S66

**SESSION III**
**Mortality and morbidity amongst sedated intensive care patients**
by I. McA. Ledingham, J.F. Bion, L.H. Newman, J.C. McDonald and P.G.M. Wallace ..... S69 – S77
**Clinical experiences with Ro 15-1788 (Anexate) in benzodiazepine and mixed-drug overdoses**
by R. Fantozzi, L. Caramelli, M. Barattini, P. Botti, F. Ledda, E. Masini, F. Moroni, S. Peruzzi, A.M. Zorn and P.F. Mannaioni ..... S79 – S82
**Controlled sedation in ventilated intensive care patients**
by R. Ritz, S. Elsasser and J. Schwander ..... S83 – S89
**The use of Anexate (Ro 15-1788) in acute self-poisoning with benzodiazepines alone or combined with other drugs — preliminary results**
by J.M. Rouzioux, F.J. Baud, C. Bismuth, J. Du Cailar, R. Ducluzeau, A. Durocher, F. Flesch, G. Bikpi-Benissan, A. Jaeger, Ph. Jean, J. Jouglard, R. Manfrendi, D. Passeron, F. Saulnier and F. Sockel ..... S91 – S98

**WORKSHOP**
**Workshop on Dormicum (midazolam) and Anexate (flumazenil) in intensive care patients** ..... S101 – S106
